Applications for the upcoming deadline will not be accepted after 3:00 pm EST. The online application system shuts down automatically at the deadline and the SUBMIT button will not process a submission.

A completed proposal consists of data entry fields submitted through the online module plus a series of PDF attachments and approval from the institution’s signing official.

Applications will require a signature from the institutional signing official from the institution where the award will occur. The signatory official will receive an email once their contact information is added to the proposal. The candidate should ideally follow-up with the signing official and provide instructions. The signing official must “sign off” by the application deadline at 3:00 pm.

All attachments must be uploaded as Adobe Portable Document Format (PDF) files.

NO EXCEPTIONS OR EXTENSIONS WILL BE GRANTED. After the 3pm deadline, applicants with incomplete proposals and those not adhering to instructions will be disqualified. Only full proposals submitted through the BWF online application website will be accepted.

Nominating Institution and Contacts (including Signatory Official)
The institution is where the proposed work will be performed during the award and the institution where the Principal Investigator holds an appointment. The institution for the proposal may not be changed.

Applications will need to be approved by an official responsible for sponsored programs, generally from the institution’s grants and contract’s office, office of research, or sponsored program’s office at a degree-granting institution; at other non-profits in the US and Canada, this is typically the executive director. The institutional or signing official should be added in this section. An email will be generated to the institutional officer/signing official notifying that an application is in progress. The institutional/signing official will need to certify your eligibility for the award, that the institution approves the application submission, and that the institution is eligible to receive the award.

It is the responsibility of the applicant to follow-up with the Signing Official with instructions. The proposal may NOT be submitted without the signature of the Signing Official. By adding the official to the application, you are granting access to the application.

Partners
Up to three collaborators may be added to the proposal. Add the collaborator's contact information with the role of "Collaborator." Demographic information and a CV must be added for each collaborator.

Lay Abstract
Provide a well-articulated summary that the educated general public can comprehend (3000-character limit).

Scientific Abstract
Describe the proposed work in language that is understandable to a multidisciplinary group of scientific reviewers (3000-character limit).
